ABOUT DEPARTMENT

The department was established as an allied department in the year 1988 when the college was started. Mathematics and Statistics are taught as allied courses in the Department of Computer Science and Applications, Information Technology, Cyber Security, Software Systems, Electronics, Biotechnology, Biochemistry, Microbiology, Commerce, Psychology and Management. The department has sound infrastructural facilities in addition to a highly qualified and motivated team of faculty members. The department organizes seminars regularly and various value-added programs for the holistic development of the students.

The department of Mathematics was elevated to the status of a Major department in 2002. Starting with B.Sc. Mathematics in the same year, the department successfully introduced a PG programme in Mathematics in 2004, Research Programme (M. Phil) in 2006 and Ph.D in 2023. It provides a strong foundation in the basics of Mathematics and motivates them towards specializations for research activities in an inter disciplinary nature.
