COURSES OFFERED

BA CRIMINOLOGY

BSC FORENSIC SCIENCE

## **ABOUT** **OUR DEPARTMENT**

---

The integration of criminology and forensic science in our department marks a pivotal step towards a comprehensive understanding of criminal behavior and its investigation. By combining theoretical insights from criminology with the practical application of forensic techniques, we aim to create a holistic approach that enhances our ability to unravel complex cases, contribute to justice, and advance the field as a whole.

CMS is the only institution under Bharathiar University that has offered Criminology as an optional subject for BA undergraduates since 2020, with the mission of providing quality education to raise social justice awareness. The students are taught the fundamental principles of crime, as well as social problems and their reparations. They also study Forensic Science, Scientific Investigation, Court Functions, Criminal Psychology, Cyber Investigation, Penology, Victimology, Forensic Medicine, Police Administration, Security, and Vigilance, among other subjects. Bharathiar University has offered Forensic Science as a subject for B.Sc. undergraduates since 2023, with the mission of providing quality education to raise crime & criminal justice awareness. The students are taught the fundamental principles of crime, as well as scientific applications on crime scene evidences. Forensic Sciences includes essential components such as Forensic Pathology, Psychiatry, Psychology, Anthropology, Forensic Medicine and Odontology (Dentistry). It is chiefly laboratory-based science consisting of related elements of Chemistry, Biology, Toxicology, Ballistics, the Science of Fingerprinting, Questioned Documents and Impressions.
